

CANDIDATE INFORMATION BOOKLET PLEASE READ CAREFULLY

The Health Information and Quality Authority (HIQA) is undertaking a competition to identify suitable candidates for appointment to the position of:

Role Title:	Senior Health Technology Assessment (HTA) Analyst
Grade:	Engineer Grade I
Tenure:	One Permanent (Full-time) vacancy for immediate appointment Additionally, HIQA may create a panel for future permanent and fixed term vacancies that may arise
Location:	Dublin, Cork or Galway Office

Blended Working: 1 - 2 days a week in the office and the remainder of the working week

spent working from home. Further information can be found below

under Interim Blended Working Arrangements.

Salary: €77,114 Engineer Grade I, Point 1

5.00pm Monday, 20th February 2023 Closing date:

This recruitment campaign will be in compliance with the Code of Practice, Appointment to the Civil Service and Public Service prepared by the Commission for Public Service Appointments (CPSA). The competition will be conducted under the recruitment licence of the Health Information and Quality Authority. The final Selection Process will be carried out by the Health Information and Quality Authority.

This Code of Practice is published by the CPSA and is available on www.cpsa.ie

About the Health Information and Quality Authority (HIQA)

The Health Information and Quality Authority (HIQA) is an independent statutory authority established to promote safety and quality in the provision of health and social care services for the benefit of the health and welfare of the public.

HIQA's mandate to date extends across a wide range of public, private and voluntary sector services. Reporting to the Minister for Health and engaging with the Minister for Children, Equality, Disability, Integration and Youth, HIQA has responsibility for the following:

- Setting standards for health and social care services Developing person-centred standards and guidance, based on evidence and international best practice, for health and social care services in Ireland.
- Regulating social care services The Chief Inspector within HIQA is responsible for registering and inspecting residential services for older people and people with a disability, and children's special care units.
- Regulating health services Regulating medical exposure to ionising radiation.
- Monitoring services Monitoring the safety and quality of health services and children's social services, and investigating as necessary serious concerns about the health and welfare of people who use these services.
- Health technology assessment Evaluating the clinical and cost-effectiveness of health programmes, policies, medicines, medical equipment, diagnostic and surgical techniques, health promotion and protection activities, and providing advice to enable the best use of resources and the best outcomes for people who use our health service.
- Health information Advising on the efficient and secure collection and sharing of health information, setting standards, evaluating information resources and publishing information on the delivery and performance of Ireland's health and social care services.
- National Care Experience Programme Carrying out national service-user experience surveys across a range of health services, in conjunction with the Department of Health and the HSE.

Key Areas for Performance

HIQA has identified key behavioural and technical competencies for effective performance through a Competency Framework as seen below. Please refer to the role description for an overview of each competency and the proficiency levels required for this role. For more in-depth information on the competencies. It is important that you review the full competency framework guidance document which is available at: https://www.hiqa.ie/about-us/careers.

Proficiency Levels

This Competency Framework is based on four levels of proficiency that build on each other:

Emerging/Developing: The level of competency required to carry out some of the core requirements of the role, with support/leadership required to develop competency in other requirements

Proficient: The level of competency required to carry out the core requirements of a role

Skilled: The level of competency required to carry out the core requirements of a role, and develop capability in others or demonstrate the competency in a more senior or complex role

Master: The level of competency required to carry out the core requirements of a role, develop capability in others, demonstrate the competency in a more senior or complex role and be seen as a role model in the organisation or field in that area of competence.

Behavioural competencies for all HIQA staff

Technical competencies for all HIQA staff

Role Description

Role Overview				
Role Title	Senior Health Technology Assessment Analyst			
Directorate	Health Technology Assessment			
Grade	Engineer Grade I			
Reports To	Deputy Director of Health Technology Assessment or Chief Scientist			
Role Purpose				
The purpose of this role within the relevant business unit and for HIQA as a whole:	The purpose of this role is to join a multidisciplinary team with responsibility for the effective implementation of HIQA's programmes to deliver high quality health technology assessments, other evidence-based advice and evidence synthesis outputs, and therefore to embed evidence-based methodology in the health decision-making processes in Ireland. The HTA team, overall, comprises approximately 30 analysts. The scope of HIQA's work includes providing evidence synthesis and evidence-based advice to inform the public health response to COVID-19, providing evidence synthesis to support the work of the National Screening Advisory Committee, and health technology assessment advice to inform investment or disinvestment in health technologies and programmes. HIQA			
	also performs evidence synthesis to support the development of National Clinical Guidelines & Audit and the development of national health policy, and appraises and develops evidence synthesis reviews related to medical exposure to ionising radiation. HIQA works collaboratively with high-level stakeholders, with academic groups and with international HTA agencies to deliver on these objectives. Methods development and academic outputs are actively encouraged and the Directorate hosts a range of post-graduate fellowships and an active post-graduate degree training programme. The post holder will actively engage in the work of the HTA directorate and of HIQA to deliver on the annual business plan in line with the strategic objectives as outlined in HIQA's Corporate Plan.			
Behavioural Expectations				
The way that HIQA people are expected to work to role model HIQA values:	The incumbent of this role is expected to demonstrate HIQA's values in the delivery of every day work and interactions with service users and colleagues, by putting people first, being fair and objective, being open and accountable, demonstrating excellence and innovation and working together.			
Common Tasks				
Team Member	 Seek clarity on the tasks associated with own role Complete tasks in compliance with policies and procedures Adhere to relevant legislation, standards and internal audits Fulfil any mandatory or professional competency requirements Maintain confidentiality and a professional approach Raise any concerns in relation to workplace health and safety Actively identify learning needs and development opportunities Actively contribute as a team member 			

- Follow direction and take on new and different tasks
- Set and achieve performance goals that contribute to HIQA strategy
- Regularly seek feedback to meet performance expectations and goals

Common Tasks

Manager

Team management:

- Set clear strategic direction and action plans for direct reports
- Build team cohesion and cultivate an engaged, productive environment
- Undertake regular coaching, performance feedback and development conversations with direct reports
- Ensure direct reports access appropriate training and development
- Plan for and manage recruitment activity and vacant roles
- Manage staff retention and attrition effectively

Operational management:

- Contribute to business planning and knowledge management
- Forecast and manage resources in line with available budget
- Ensure that policies and procedures in area are current and adhered to
- Ensure compliance with workplace health and safety standards
- Meet audit requirements and ensure legislative compliance
- Report on performance and relevant business measures as required
- Identify risks, and develop contingency plans where necessary
- Identify inefficiencies and implement improvements to work practices

Role Specific Tasks

The key tasks and activities associated with the role:

The key tasks and activities associated with the role include but are not limited to:

- Leading and contributing to the production of broad comprehensive HTAs and evidence syntheses and appraisals of evidence submissions by multidisciplinary teams within defined timelines;
- Liaising with Expert Advisory Groups and other key external stakeholders;
- Supporting project leads to develop and implement project management plans;
- Contributing to drafting and writing reports that present complex information in an easily understood and accessible format;
- Conducting systematic literature reviews and analysis of clinical and economic data to inform development of analytical models and/or summary report writing;
- Gathering, analysing and interpreting epidemiological, clinical effectiveness and economic data to populate simulation models to estimate clinical benefits, cost-effectiveness and budget impact;
- Working across some or all of the key evidence domains to include: description of the technology, epidemiology, clinical effectiveness, cost-effectiveness, budget and resource impact, organisational issues, social and ethical issues;
- Contributing to the development of processes, policies, quality standards and training to ensure evidence syntheses and appraisals

	are completed in accordance with described standards and are of a high quality;				
	 Contributing to the development of evidence synthesis methodology; 				
	 Contributing to the development of National HTA Guidelines; 				
	Coordinating with the Communications Department the publication				
	of key documents and the coordination of consultative processes;				
	Leading on or contributing to the development of peer reviewed				
	academic publications;				
	Working on collaborative projects with academic partners and with other national and international hodies involved in HTA technology.				
	other national and international bodies involved in HTA, technology appraisals and health evidence synthesis;				
	 Assisting with HTA, technology appraisal and evidence synthesis 				
	capacity building in the wider health service;				
 Representing HIQA in interactions with senior hear 					
	stakeholders nationally and internationally and furthering HIQA's				
strategic objectives;					
	Proactively engaging in performance development reviews and				
actively seeking out learning and development opportunitie					
 Managing and mentoring more junior members of 					
	required; Providing support to the Director of Health Technology Assessment				
	and other directorate staff;				
	 Undertaking other duties and responsibilities as may be determined 				
	by the Director of Health Technology Assessment.

¹ Health Services Research involves the analysis of how people access healthcare, the cost of care, and what happens to people as a result of care. Analysis can use a range of qualitative and quantitative methods.

	 Extensive experience of presenting information through a variety of means to a range of audiences; Direct management of others, including task allocation, task assignment, personnel management; Knowledge of risk management; Knowledge of information governance requirements.
The experience that is desirable to effectively meet the requirements of the role:	 Knowledge of the healthcare system in Ireland and an understanding of the role of evidence synthesis to inform health policy and health service decisions; Strong academic publication record; Strong research funding track record; Extensive experience of systematic review of clinical literature.

HIQA Competencies (Behavioural)	Description	Required Proficiency
Resilience	Maintains personal confidence and is able to manage self and emotions in a flexible and adaptive manner when faced with adversity or challenging situations	Master
Integrity	Is sincere, respects and values others, maintains a high standard of personal ethics, reliably delivers on promises and takes a rights-based approach to all decisions and actions	Skilled
Collaboration	Builds relationships based on collaboration and trust, is politically and socially astute in approach and is able to resolve difficult situations and conflict	Skilled
Leadership	Orients self and others to a vision, engages with and contributes to an inclusive and productive work environment; holds to account, promotes learning and challenges self and others to achieve a shared purpose	Skilled
Customer Focus	Recognises internal and external customers and stakeholders, and proactively seeks to understand, uphold and respond to their needs	Skilled
Good Judgement	Seeks and analyses information to better understand complex situations, applies an ethical framework to make critical and objective evaluations and reaches high-quality decisions that are contextually relevant	Master
Results Orientation	Can deliver results in challenging situations with and through others, strives to exceed expectations and creates as much value as possible	Skilled
HIQA Competencies (Technical)	Description	Required Proficiency
Operational Expertise	Applies knowledge, skills and abilities to fulfil requirements of the role effectively in the context of the operational area and function	Master
Evidence-Based Research	Critically seeks information and researches, exploring a range of potential sources, to ensure that a broad set of inputs, both quantitative and qualitative, are used to inform decisions and recommendations	Master
Information Analysis	Analyses and assesses information in a structured way to inform and improve decision-making, problem-solving, recommendations and everyday work	Master
Communication	Develops and delivers key messages and documentation based on quality inputs and consultation with others. Presents information in an authentic, clear, and easy-to-understand way that is impactful and tailored to the needs of the audience	Master
Resource Management	Manages available resources to achieve the best outcomes	Skilled
Project Management	Identifies, plans for and implements change projects and initiatives effectively in collaboration with others	Skilled
Quality Improvement	Delivers quality for customers and stakeholders in everyday work through high standards, effective problem-solving and continuous improvement	Skilled

Principal Conditions of Service

Probation:

A probationary period of six months applies to this position.

Pay:

Candidates will be appointed on the **minimum point of the salary scale (€77,114)** and in accordance with the Department of Finance guidelines. The rate of remuneration will not be subject to negotiation.

The incremental progression for this scale is in line with Government pay policy. The salary scale for this position is as follows:

Engineer I

€77,114 €79,534 €81,963 €84,383 €86,803 €89,682 €92,959¹ €96,238²

- 1. After 3 years' satisfactory service at the maximum
- 2. After 6 years' satisfactory service at the maximum

Entry will be at the first point of the scale. An exception may occur where an appointee has been serving elsewhere in the **public service** in an analogous grade and pay-scale. In this case the appointment may be made at the appointee's current point of scale. Please note the rate of remuneration may be adjusted from time to time in line with Government pay policy.

Superannuation:

Pensionable public servants (new joiners) recruited on or after 1 January 2013 will be members of the Single Public Service Pension Scheme. Please note that the Single Public Service Pension Scheme applies to all pensionable first-time entrants to the public service, as well as to former public servants returning to the public service after a break of more than 26 weeks. In certain circumstances, e.g. where the public servant was on secondment or approved leave or remains on the same contract of employment, the 26-week rule does not apply. The legislation giving effect to the Scheme is the Public Service Pensions (Single Scheme and Other Provisions) Act 2012.

For those who are not subject to the Single Public Service Pension Scheme (e.g. those transferring from other public service employment where the break in service, if any, is less than 26 weeks), the terms of the Health Information and Quality Authority Superannuation Scheme will apply.

Annual Leave:

Annual leave is 30 days.

Hours of attendance:

Hours of attendance will be fixed from time to time but will amount to not less than 35 per week. The appointee may be required to work additional hours from time to time as may be reasonable and necessary for the proper performance of his or her duties subject to the limits set down under working time regulations.

Interim Blended Working Arrangements

HIQA has introduced an interim Blended Working Policy to offer more flexible working arrangements to all employees. We aim to strike a balance between being flexible, efficient, and resilient by facilitating blended working where practical, while enabling onsite interaction, collaboration, and support as required.

All roles in HIQA have been assessed under the criteria of business needs and role suitability for blended working. This determined the proportion of time that individuals will spend working in HIQA offices and working from home, depending on their role.

There may be a requirement to attend the office for more than the allocated number of days for training and onboarding purposes at the start of your tenure and during the probation period. Please note that HIQA's Interim Blended Working Policy will be reviewed and aligned to the Right to Request Remote Working legislation when enacted and the government's Blended Working Policy Framework for Civil and Public Service.

Further guidance on HIQA's Interim Blended Working Policy, which includes eligibility criteria will be issued to successful candidate/s.

It is important to note that this is an opt-in policy and must be applied for upon appointment.

Selection Procedure

An information booklet and application form are available at: Careers with HIQA (recruitisland.ie)

How to Apply and Closing Date:

The completed application form must be submitted by **5.00pm on Monday 20th February 2023.**

Only applications completed online through Careers with HIQA (recruitisland.ie) will be accepted. CVs will not be accepted.

Selection Process:

The Health Information and Quality Authority will convene an expert board to carry out the competitive stages of the selection process to the highest standards of best practice. The approach employed may include:

- A short-listing of candidates, on the basis of the information contained in their application
- A competitive competency based interview which may include a presentation or other exercises
- Any other tests or exercises that may be deemed appropriate

Please note the competency proficiency levels referred to in the above role description. This will assist you when completing the application form and preparing for the competency based interview.

Normally, the number of applications received for a position exceeds that required to fill existing and future posts. While candidates may meet the eligibility criteria of the competition, if the numbers applying for a post are such that it would not be practicable to progress all candidates to

the next stage of the selection process, HIQA may decide that a certain number of candidates based on order of merit in the shortlisting may be called to the next stage of the process.

In this respect, a short-listing process will be employed based on an examination of the application forms and the essential and desirable requirements for the posts, to select a group for the next stage of the process who appear to be the most suitable for the position. It is therefore in your own interest to provide a detailed and accurate account of your qualifications, experience and competencies as requested on the application form.

Competition updates will be issued to your email address as entered on the application form. The onus is on each applicant to ensure that they are in receipt of all communication. You are advised to check your emails on a regular basis throughout the duration of the competition; in addition, being sure to check junk/spam folders should any emails be mistakenly filtered. HIQA accepts no responsibility for communication not accessed or received by an applicant.

Interview Dates:

The onus is on all applicants who are shortlisted for interview to ensure they are available for interview on the identified date.

Interview Expenses:

The Health Information and Quality Authority will not be responsible for any expense, including travelling expenses that applicants may incur in connection with their application for this post.

Panels:

A panel may be created from which future vacancies may be filled.

Citizenship Requirements:

Eligible candidates must be:

- (a) A citizen of the European Economic Area (EEA). The EEA consists of the Member States of the European Union, Iceland, Liechtenstein and Norway; or
- (b) A citizen of the United Kingdom (UK); or
- (c) A citizen of Switzerland pursuant to the agreement between the EU and Switzerland on the free movement of persons; or
- (d) A non-EEA citizen who is a spouse or child of an EEA or UK or Swiss citizen and has a stamp 4 visa; or
- (e) A person awarded international protection under the International Protection Act 2015 or any family member entitled to remain in the State as a result of family reunification and has a stamp 4 visa or
- (f) A non-EEA citizen who is a parent of a dependent child who is a citizen of, and resident in, an EEA member state or the UK or Switzerland and has a stamp 4 visa.

To qualify candidates must be eligible by the date of any job offer.

It shall be the responsibility of the candidate to ensure these permissions are in place.

Information on legislation and guides to the procedures in relation to obtaining green card permits, work permits and spousal/dependant permits are available on the Department of Business, Enterprise and Innovation website. https://dbei.gov.ie/en/What-We-Do/Workplace-and-Skills/Employment-Permits/

Candidates will be required to provide verification of citizenship eligibility and qualifications in a form acceptable to the Health Information and Quality Authority.

Candidate Obligations:

Candidates should note that canvassing will disqualify them and will result in their exclusion from the process.

Candidates must not:

- knowingly or recklessly provide false information;
- canvass any person with or without inducements;
- impersonate a candidate at any stage of the process;
- interfere with or compromise the process in any way.

Where a candidate is found guilty of canvassing or in breach of any of the above, then:

- where they have not been appointed to a post, they will be disqualified as a candidate; or
- where they have been appointed to a post, they shall forfeit that appointment.

Candidates must:

- Have the knowledge and ability to discharge the duties of the post concerned
- Be suitable on the grounds of character
- Be suitable in all other relevant respects for appointment to the post concerned and, if successful, they will not be appointed to the post unless they:
 - Agree to undertake the duties attached to the post and accept the conditions under which the duties are, or may be required to be, performed
 - Are fully competent and available to undertake, and fully capable of undertaking, the duties attached to the position
 - Be passed medically fit to take up the appointment

Prior to appointing:

Prior to recommending any candidate for appointment to this position HIQA will make all such enquires that are deemed necessary to determine the suitability of that candidate. Until all stages of the recruitment process have been fully completed a final determination cannot be made nor can it be deemed or inferred that such a determination has been made.

Should the person recommended for appointment not accept the appointment, or, having accepted it, relinquish it, HIQA may at its discretion, select and recommend another person for appointment on the results of this selection process.

Deeming of Candidature to be Withdrawn:

Candidates who do not attend for interview when and where required by the Health Information and Quality Authority, or who do not, when requested, furnish such evidence as the Health Information and Quality Authority require in regard to any matter relevant to their candidature, will have no further claim for consideration.

Confidentiality:

Subject to the provisions of the Freedom of Information Acts 2014, all enquiries and applications are treated as strictly confidential and are not disclosed to anyone, outside those directly involved in the process.

Data Protection:

Please note that all personal data shall be treated in accordance with the General Data Protection Regulation (GDPR) and Data Protection Acts 1988 - 2018.

For further information on how the Health Information and Quality Authority processes your data, please review the privacy notice on our website: https://www.hiqa.ie/reports-and-publications/corporate-publication/hiqa-privacy-notice

Protected Disclosures:

HIQA is committed to maintaining a responsible and ethical culture with the highest standards of honesty, integrity, accountability and compliance in accordance with the Protected Disclosures Act 2014 (as amended) ("the Act").

If you are a HIQA worker, which includes a job applicant under the Act, you can make a protected disclosure about HIQA to HIQA. If you want to know more about making an internal protected disclosure please email internalPD@hiqa.ie for guidance.

Equality:

The Health Information and Quality Authority is committed to a policy of Equal Opportunity.

HIQA encourage applications from diverse candidates. If we can make any accommodations to enable us to see the best version of you during interview, please outline this in the appropriate section of the application form. All information disclosed will be kept confidential.

Guidelines for Dealing with Appeals/Requests for Review:

The Health Information and Quality Authority will consider requests for review in accordance with the provisions of the codes of practice published by the Commission for Public Service Appointments (CPSA). Where a candidate is unhappy with an action or decision in relation to their application they can seek a review under Section 7 of the Code of Practice governing the recruitment process.

Where a candidate believes that an aspect of the process breached the CPSA's Code of Practice, they can seek a review under Section 8 of the Code of Practice.

Codes of practice are published by the CPSA and are available on www.cpsa.ie
